PA12573

MAIN APPLICATION			
Make	Model	Engine	OE Numbers
Cadillac	ATS	GAS	12657499
Chevrolet	Camaro	Flex	
GMC	Canyon	Bifuel	

...All in Dolz

In-house production end to end

At our European facility in Spain, we proudly house a melting furnace for die casting, setting Industrias Dolz apart as one of the industry leaders who have integrated this process into its own facilities.

By consolidating our entire manufacturing processes "under one roof," Dolz can ensure the highest quality of our products, with every step undergoing rigorous quality audits, streamlined supplies, and shortened lead times. This achievement has been made possible through the successful implementation of the Lean Manufacturing method within our facilities.

+ Foundry 24-hour

A 24-hour active casting, that grants all internal manufacturing needs, with an **actual output over 17,000 units per day.**

In this department the aluminum is melted, and afterward injected into the molds robotically.

+ Injection, Machining, Assembly

Injection: 100% automated and robotized.

Machining: Cutting-edge technology and high-precision machinery ensuring OEM standards.

Assembly: Automated lines to maximize efficiency and enhanced overall performance.

+ Stock management

Our management system guarantees optimal efficiency in delivering top-notch service.

We have seamlessly integrated a fluid process in line with the advancements of **industry 4.0.**
