DOLZ **N210CT / N210 WP VERSIONS**
WITH & WITHOUT BACK HOUSING

+ N210CT water pump
Why with back housing?

The combination of aluminum housing and plastic back housing creates contractions from varying thermal expansions resulting in slight deformations during extended use. Even at the OE level, **PSA suggests replacing the entire water pump assembly with the back housing** under the OE number 9836834880.

N210CT WATER PUMP LEAK TEST
DOLZ'S FACILITIES (SPAIN)

MANUFACTURING
since 1934

In-house production end to end. From engineering to casting, injection, precision machining, to assembly and stock management. We proudly manufacture and supply automotive parts worldwide, ensuring the highest quality with every step undergoing rigorous quality audits, streamlined supplies, and shortened lead times.
